## EDUCATION

**Kalinga Institute of Industrial Technology (KIIT)**  
*B.Tech (Computer Science & Engineering), CGPA: 8.14/10*

Bhubaneswar, Odisha  
*Jul. 2023 – Jul. 2027*

## EXPERIENCE

### AI/ML Intern ([Certificate](#))

*Aashdit Technologies*

May 2026 – Jun. 2026

*Bhubaneswar, India — On-site*

- Delivered end-to-end RAG platform enabling **semantic document search for enterprise**; shipped features across **3 document types** (PDFs, DOCX, scanned); optimized for production deployment handling **10K+ concurrent documents** with sub-200ms response time.

### Global Youth Advisor for Google

*Canvas8*

Jan. 2024 – Dec. 2026

*Remote*

- Served as **Google's insight voice** across **product teams**; provided strategic feedback via 1-1 partnerships with engineering leads, tested **Gemini features** in beta, and spoke at **5+ leadership events** on youth-AI intersection influencing product roadmap for Google's products; synthesized user research via forms, interviews, and competitive analysis.

## PROJECTS

**Docsy** | *Python, FastAPI, PostgreSQL, pgvector, React, RAG* | [Live Demo](#) | [GitHub](#)

- Built production RAG system processing **10K+ document chunks** with **sub-200ms P95 latency** via IVFFLAT indexing, hybrid semantic-keyword search, and **65% latency reduction** from Redis caching.
- Designed RBAC multi-tenant isolation; eliminated N+1 queries achieving **sub-50ms reranking**; implemented pgvector optimization for **99.2% retrieval precision** on production workloads.

**EmailBrain** | *Python, FastAPI, React, Tauri, ChromaDB, SQLite, LangChain* | [GitHub](#)

- Built privacy-first email agent: IMAP Gmail ingestion + Mistral 7B (Ollama) semantic search achieving **100ms retrieval on 100+ emails** with nomic-embed-text + ChromaDB vector store.
- Optimized SQLite transaction handling for incremental syncs; designed embedding caching reducing inference latency **40%**; integrated LangChain for intelligent triage and draft generation.

## TECHNICAL SKILLS

**Languages:** Python, TypeScript, JavaScript, Java, C++

**AI & Frameworks:** RAG, LangChain, FastAPI, React, Next.js, Node.js, Tailwind CSS

**Backend & Data:** PostgreSQL, Redis, Supabase, ChromaDB, pgvector, Docker, Git, GitHub, AWS

## OPEN SOURCE CONTRIBUTIONS

**the-monkeys/capuchin** | *Go, PostgreSQL, Database Resilience*

Jan 2026 – Present

- Implemented **exponential backoff retry logic** with **5 retry attempts** and delays ranging from **2s–30s**; optimized PostgreSQL connection pooling (**Max Open Connections: 25**, **Max Idle Connections: 5**, **Connection Lifetime: 5 min**). [PR #153](#)

## COMPETITIVE ACHIEVEMENTS

- OpenAI Academy × NxtWave × IndiaAI Buildathon 2025:** Top 15 National Finalist among **70,000+ participants**.
- ET-AI Hackathon 2026:** Advanced to the **Semi-Finals** among **54,000+ participants**.
- Techfest IIT Bombay Upskill India Challenge 2025:** Selected as a **National Finalist**.
- XR Bootcamp Inclusion Scholar:** Awarded a competitive **\$7,800 scholarship** for XR Bootcamp's Foundations & Prototyping Program.

## EXTRACURRICULAR LEADERSHIP

- AR/VR Lead, MLSA KIIT:** Organized **5+ campus-wide technical events and workshops**, engaging **400+ attendees** across AI, XR, and software development topics.

## CERTIFICATIONS

- Cisco NetAcad:** [Python Essentials](#), [CCNA 1](#), [CCNA 2](#)
